

Information on Upcoming Special Events

Updated June 29, 2008

Note, this page will be updated periodically. We intend to have details of the upcoming events on this page so everyone is kept informed. As things change regularly, please check this page periodically.

Events Covered in this version include July of 2008.

Work Bees

We have made considerable progress on our storage facility. It has been completed to the extent that it is now sufficiently secure to store trap machines and other equipment at the range. There are a few things still remaining;- soffits , installation of the overhead garage door, some backfill and electrical wiring. We also still have fencing of our newly acquired land to complete. There will be several work bees to get this done and will be announced by email. Your assistance would go along way to accomplishing our projects. As our President recently pointed out, 1 day per member would allow us to easily accomplish all our planned projects.

Thursday, July 3

Elmer Fudd shoot. We held this last year with low flying targets to simulate rabbit machines. Everyone had a good time and wanted to do this again. This year we are fortunate to have 2 rabbit machines so we will have even a better selection of targets. We will start shooting at 6pm for those who can make it that early however if you can't make it till later we will still be able to accommodate you. Following the shoot, we will have dinner at the range. Menu features what else but KFR (Kootenay Fried Rabbit). Just joking, it will be KFC plus salads. Dinner will commence about 8pm. Bring along your non-shooters to watch and enjoy dinner. Will be a great evening. At this time there are still no mosquitos so come out and enjoy while you can. There will be a nominal cost for dinner. All of the valley celebrities will be there.

Sunday, July 6

This is a regular Sunday shoot with all targets being doubles. We will start with doubles from the Pat_Trap, then move on to report pairs and crossing doubles from the portable machines.

Thursday, July 10

We are planning a walk around course to simulate Sporting Clays. This will also be a fun event so plan to attend.

Sat, Sun, July 12 & 13

This is our 6th annual Shooters Triathlon. Without doubt, this is one of the best events in Western Canada. The Triathlon includes archery, trap and .22 silhouette targets. You can also participate in either of the events or in 2 if you so choose not to enter the Triathlon. Breakfast, lunch and dinner will be available at the range.
